

Identify top passive talent from Facebook using the industry's first Facebook sourcing tool, built exclusively for Healthcare.

Identified HealthRecruit transforms Facebook into a powerful passive candidate database and gives you first time access to the profiles of Physicians, Nurses, and Allied Health professionals you can't find on other resources.

Using our patented search technology, HealthRecruit surfaces over 600M candidates through a powerful and intuitive search interface purpose-built for healthcare recruitment. Searching and messaging Facebook candidates has never been easier with normalized current job titles (ie. RN = Registered Nurse), current companies, locations and universities. HealthRecruit makes it easier for you to find a broader selection of relevant candidates. By working closely with a team of industry leaders, Identified has optimized HealthRecruit to decrease time to identify and contact your next hire.

Expand Your Reach, Decrease Cost per Hire

Stop buying state lists, outdated resume databases or association lists and search and message over 1 million healthcare professionals from the Facebook database on a clean and manageable platform.

Fish in a Bigger Pond, With Better Fish

Facebook is 6x the size of the next largest competitor and the passive sourcing through HealthRecruit enables you to reach professionals that may not be actively looking and have not been contacted

Run Highly Targeted Searches

Find the most qualified and relevant candidates by running highly targeted searches using criteria based on Keywords, Titles, Locations, Healthcare Facilities, Experience and Education.

Nurses Know Nurses, Doctors Know Doctors

Narrow your search for candidates connected to your Healthcare System or Staffing organization, increasing your referrals and decreasing your time to hire.

"Within a few minutes of using HealthRecruit, I was able to find over 50 quality RNs in the Miami area and within a day, I was able to connect with about 15 of them." - **Lorine Cheung, Travel Nurse Recruiter**
